During the base game when the bell symbol (wild) appears on any reel, it expands, adding one to four symbol positions to the reel, paying all ways, including the newly created ones. This results in up to 16,807 ways to win.

Three, four or five Anchor scatter symbols in view trigger the Free Games Bonus and award 10, 12 and 15 free games, respectively. At the start of the bonus each triggering scatter will expand to add one symbol position to that reel.

During the Free Games Bonus, each bell symbol appearing at any position on the reel expands to add one symbol to that reel. All symbol positions on that reel transform into bells. Each reel may expand up to seven symbol positions high. If this happens an extra three free games are awarded.

Once a reel reaches the maximum of seven symbol positions high, each bell symbol that lands in view awards one additional free game. Free games end when 0 games remain or after 200 games have been played.

TRIPLE HEIST

Triple Heist™ Video Slots is a 20-line game with an exciting Heist Feature that incorporates the popular Lock and Re-spin mechanic. This allows players to upgrade their winnings and receive better paying award cards of up to 1,000 X total bet. Keep your players engaged with this interactive new game.

KEY FEATURES

Exciting Heist Feature

Lock and Re-Spin Mechanic for Big Win Opportunities

Buy-A-Bonus for Guaranteed Heist Feature

High-Paying Award Card of up to 1,000 X Total Bet

IGT™

Three or more vault scatter symbols in view trigger the Heist Feature. Once this occurs a random symbol will be selected as the player's starting/active symbol. At this point all vault and wild symbols will transform into the active symbol.

If the Heist feature is triggered by four vault scatter symbols, the first three symbols will be locked and cannot be selected as the active symbol. If its triggered by five vault scatter symbols the first six symbols will be locked and cannot be selected as the active symbol.

At the beginning of the feature all active symbols will lock for the remainder of the feature and three re-spins will be awarded. After each re-spin, if an active symbol appears, the number of re-spins resets to three. If a vault symbol appears a higher paying symbol will be selected as the active symbol.

A full screen of the same symbol awards a pick from three vaults containing Collect, Upgrade, or Jackpot. Collect will result in the advertised award card, Upgrade will result in a higher paying symbol, and Jackpot will transform all symbols into golden crowns awarding 1,000X total bet.
