Benefits and Features

- Exploding Wild Bubbles and stacked symbols create reasonable chances for big wins
- The bubble symbol is wild and substitutes for all symbols except for the treasure chest symbol
- **Wild Bubble Feature:** Bubbles can appear on any random position of the reel on each spin. This symbol becomes wild for this game. If the bubble lands on an Ocean Magic™ symbol, it explodes and all surrounding symbols become wild for this game. Bubbles substitute for all symbols except for the bonus trigger symbol.
- **Bubble Boost:** By doubling their bet, players can activate the Bubble Boost feature in which up to seven extra bubbles can appear on each spin. This feature is available in the base game and the free games bonus.
- **Ocean Magic™ free games bonus:** Three or more treasure chest symbols appearing anywhere on screen trigger the free games bonus. Players pick floating bubbles to reveal extra picks and free games. Players are awarded up to twenty picks depending on the number of treasure chest symbols that triggered the bonus. Free games can be re-triggered for up to 750 free games. The player selection can be re-triggered four times. One or more bubbles appear below each reel and move up one position at each spin before landing on one symbol.
