

HARDWARE

Rise55™ Gaming Machine

Rise above the rest.

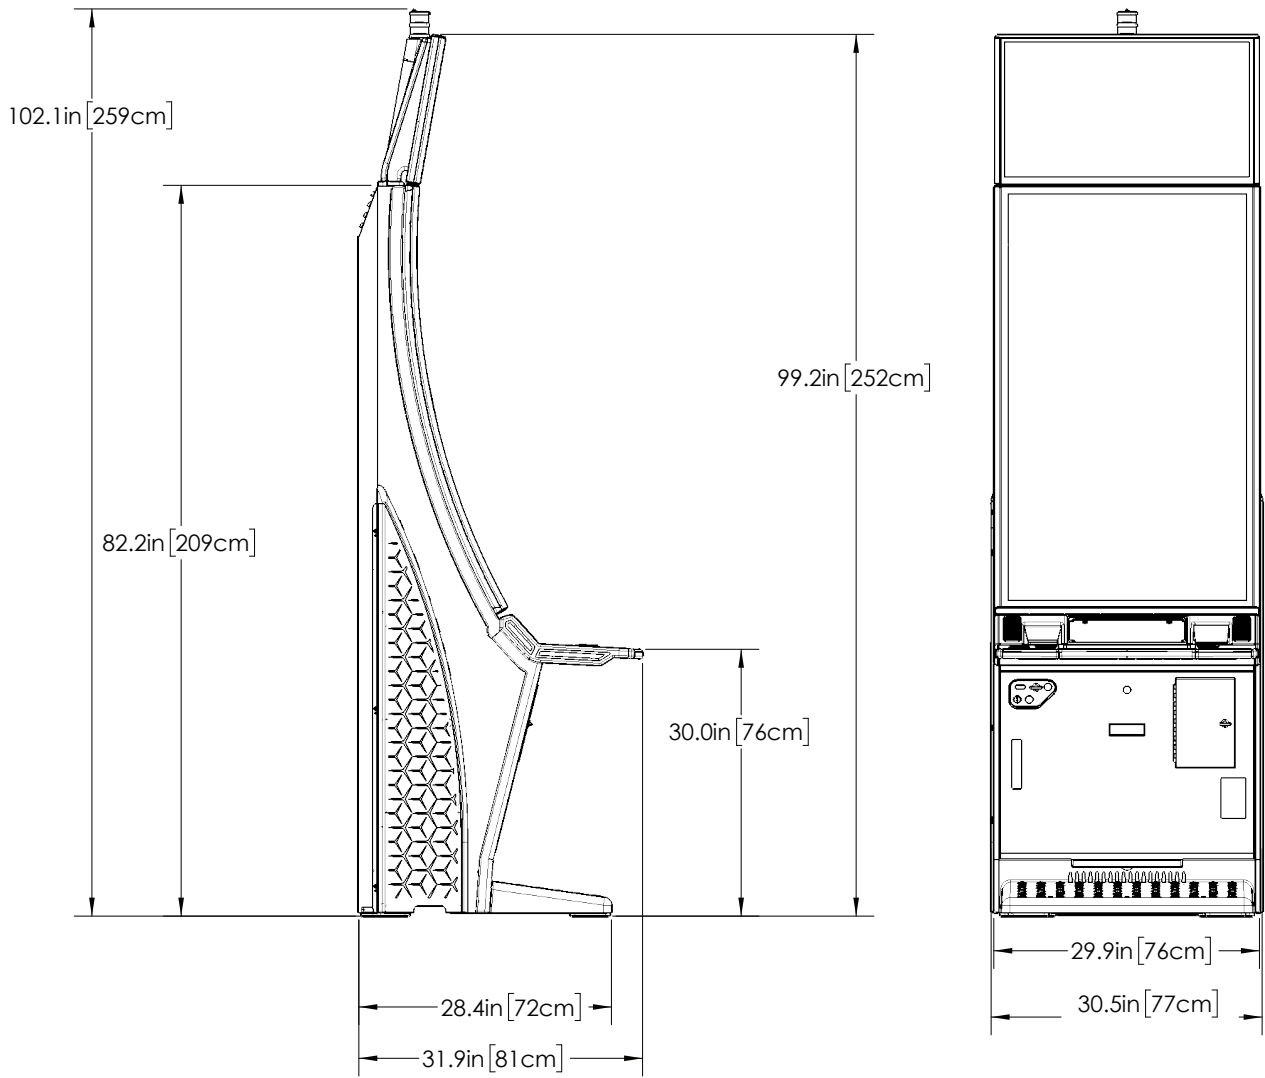

The Rise55™ was designed to showcase Multi-Level Progressive games on your floor, with improved displays, enhanced lighting and a more desirable footprint than similar cabinets. Seeing is believing with the crisp 55-inch Ultra High-Definition screen, set to a lower playfield for ultimate immersion. Enhanced side lighting creates an immediate attraction that generates flow and enlivens the entire area. Most importantly, the reduced footprint will make this the most flexible cabinet on your floor.

Benefits and Features

- **Displays**
 - 55" Ultra High-Definition Screen
 - Narrower bezel with a gentle C-Curve helps reduce glare
