Amazing Treasure Machine™ Video Slots

The Golden ATM Wild appears on reel 3 and serves as a wild and a win multiplier. It substitutes for all symbols, except the scatter symbols. If there is a winning combination on reel 3, the symbol will expand across the entire 3rd reel, and will double all win lines passing through.

The Silver ATM Wild expands if any win lines are available, substituting for all symbols except the Golden ATM Wild and the scatter symbols. There is no multiplier associated with it and it appears on reels 2, 3 and 4.

The Vault top symbol in conjunction with 2 Silver ATM Wild symbols and the multiplying Golden ATM Wild awards up to 3086 X Bet.

Elephant King[®] Video Slots

Sure to start a stampede.

Target Player

- Video slot players who enjoy high-volatility games, new game features, and elevated win anticipation
- Fans of the original dual-screen release which was a Proven Performer

Benefits and Features

- Debut of the Prize Disk™ feature:
 - Across the top of the reels is a disk that showcases win values and free games bonus triggers
 - During each spin, the values advance from right to left, advertising potential wins to players
 - If a trigger symbol lands on reels one, three, or five, the Prize Disk™ feature is triggered, and the associated value or free games trigger that is above the trigger symbol reel is awarded
- When a trigger symbol lands on a reel beneath a free games trigger, the free games bonus is initiated:
 - Up to 30 initial free games can be awarded
 - The Prize Disk™ feature trigger symbols are active on all five reels, creating increased win opportunities on every spin
 - Free games can be retriggered
- Layered audio, lighting and animation in the base game increases anticipation when the Prize Disk™ feature is about to award a prize. This enhances excitement, and notifies the player that a prize could be awarded any second.

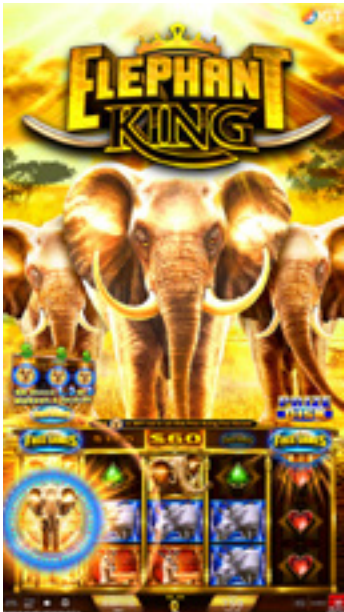

Differentiation

- Players will love the all-new Prize Disk™ feature which elevates player anticipation, giving them the ability to see upcoming free games triggers and bonus win opportunities
- Elephant trumpet sounds play each time the Prize Disk™ feature is awarded, creating an exciting winning atmosphere that attracts potential players and drives coin-in on neighboring machines
- Based on the original dual-screen release which was a Proven Performer

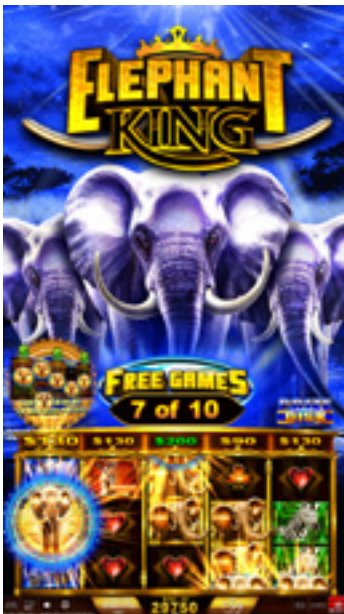

Optimization

- Placing this game in banks with other Prize Disk™ games such as Wolf Ridge™ Video Slots will help ensure optimal performance

Multiplier Madness™ Video Slots

CORE

All symbols on reel one will feature a multiplier ranging from 2X to 5X. All symbols reflected on the rest of the reels may have multipliers between 2X to 5X.

A symbol without a multiplier is treated as a 1X multiplier. The multipliers of 2 or 3 symbols of the same kind appearing on the same reel are added up. The total multiplier is the product of the multipliers on that symbol combination.

The Multiplier Upgrade Feature is randomly awarded after the reel spin of any game with one or more winning combinations. If awarded, one to five reels are selected. Multiplier values appearing on symbols in a winning combination increase by +1X to +5X.

Tiger and Dragon™ Multi-Level Progressives

In any of the game's three bonuses (Tiger, Dragon, or Tiger and Dragon Bonus) players want to land as many adjacent gongs in a row as possible, with two or more in a row triggering a credit win. Up Arrows are especially valuable, as they increase credit values exponentially.

The Tiger and Dragon Bonus is a Lock & Respin bonus with unlocking levels, including the top progressive. Gongs that land adjacent with two or more in a row become credit awards, with Up Arrows generating massive win opportunities that will keep players engaged.

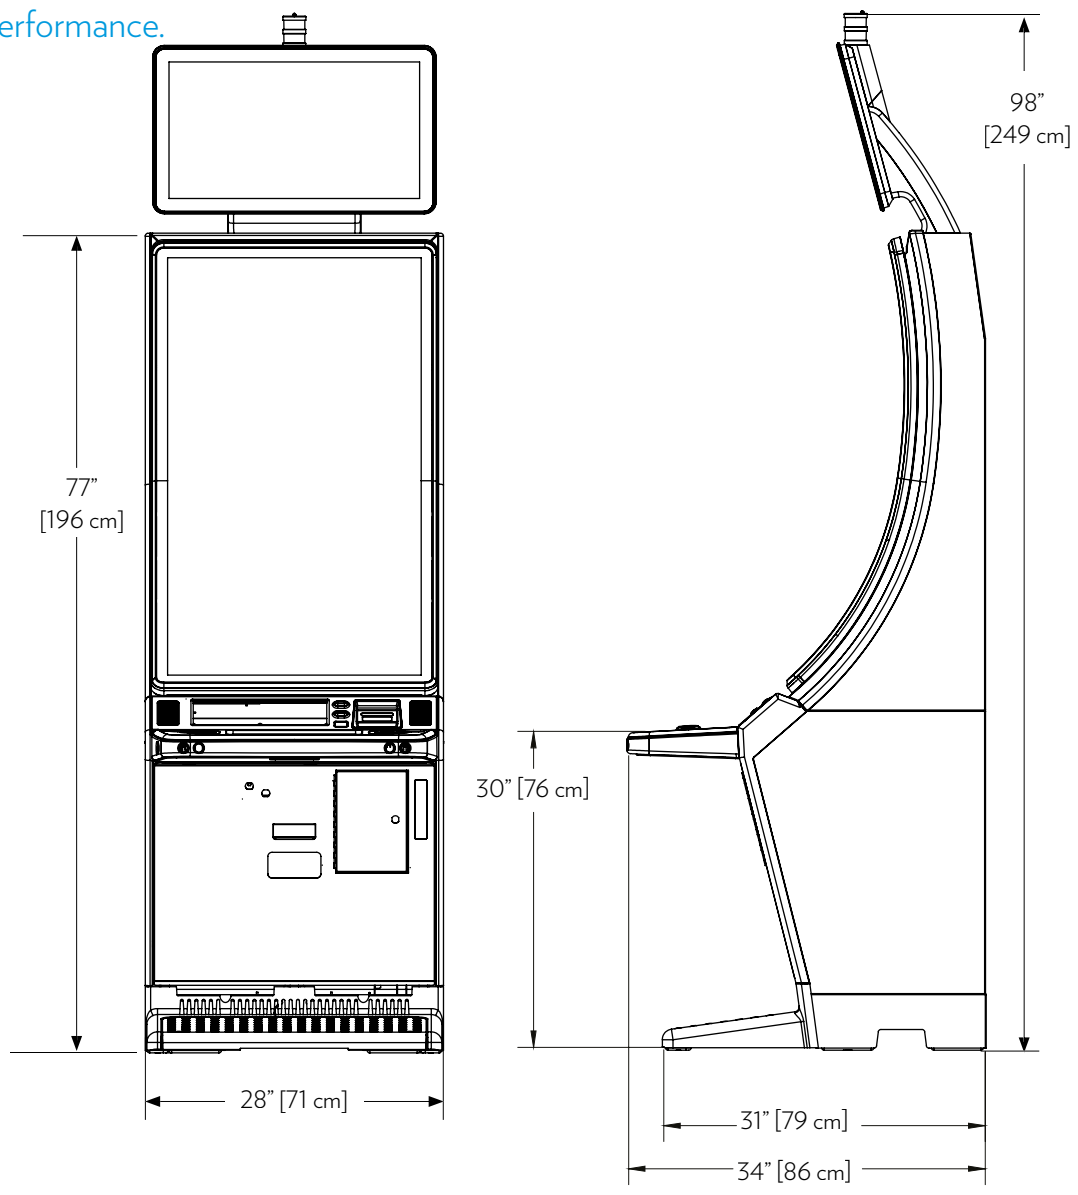

The giant gong at the top of the screen becomes 'charged' each time a gong symbol lands. When the Mystery Bonus is triggered, gongs rain down on the reels and can lead to massive wins.
