Every gem symbol in the base game builds up perceived persistence genie bottles and can trigger the Mystery of the Lamp Bonus with one to three features active. Each active feature powers up Lock and Respin bonus play.

The Mystery of the Lamp Bonus is played with 30 independent reels when the Jackpot feature is active, giving players more locations to collect gem symbols and power up the bonus. Players collect icons for chances to win all jackpot levels. Maxi, Minor, and Mini jackpots can be awarded multiple times!

Any bonus triggered with only Ignite or Double (Treasure Oasis), Boost or Collect (Enchanted Palace), or both features active can be upgraded during bonus play. Inactive gem feature symbols appearing on the bonus reels may activate their feature for the duration of the bonus.
